### 2004 Photos

The aerial photos below show the garden as it was in 2004. At this time it was completely overgrown and impassable. The bungalow (which was in a very poor state of repair) was used by SHDC to house homeless families.

## Photographs of the Leechwell Garden

### 2005 Photos

In 2005 the garden was cleared by SHDC and DOS – all the undergrowth and brambles were removed (though they soon grew back!). These photos were taken shortly after the clearance.

### The Leechwell Bungalow

The bungalow in the garden, built in the 1930's, was demolished in 2009 and the ground on which it stood used by the builders for their site offices.

### 2010 Infrastructure Work

In February 2010, the contractors, South West Highways, began work on the infrastructure of the garden – clearing the brambles, felling dead and diseased trees, contouring the ground, laying paths, and constructing the cascades and pools.
